

**Please help
Felix the
longest stay
GSPCA cat
find a forever
home**

Felix is a young female cat in need of a new home at the GSPCA Animal Shelter. She came into the Shelter in October 2011 and is the longest stay cat in need of a new home. Unfortunately she came in as a feral and is one of the few that hasn't improved and so needs a farm or stable environment. She is very interested in other cats but not so keen on people and if you think you can help her please get in touch with the Shelter on 01481 257261 or see more about her including some video clips by going to our web site www.gspca.org.gg

There are many animals at the GSPCA looking for good homes which can also be seen on our web site - www.gspca.org.gg
